EAGLE BROADBAND RECEIVES HIGH DEFINITION MEDIAPRO IP SET-TOP BOX ORDERS FROM KOOLCONNECT FOR DEPLOYMENT AT THREE PREMIER LUXURY HOTEL PROPERTIES

Partnership with Hospitality Interactive TV Leader Expands Distribution for Eagle's Leading High Definition IP Set-Top Box Technology in U.S. & International Hospitality Markets

HOUSTON, TX and NEEDHAM, MA - November 29, 2005 - Eagle Broadband, Inc. (AMEX: EAG), a leading provider of Internet protocol (IP) and communications technology and services, announced today that the company has received orders for the company's high definition MediaPro IP5000HD set-top boxes from KoolConnect Technologies, a leading provider of digital interactive entertainment solutions for the hospitality industry.

The MediaPro IP set-top boxes are being deployed with KoolConnect's Intrigue® high definition Video On-Demand system at three award-winning hotel properties including the Landmark Hong Kong, the Mandarin Oriental Tokyo as well as one of the hottest casino resorts in Las Vegas.

KoolConnect's Intrigue® system powered by Eagle's high definition set-top box technology enables these leading hotel properties to deliver the most advanced in-room entertainment services including high definition movies with DVD functionality, high-speed Internet access, an interactive television guide, virtual concierge services, online shopping, video checkout, and other revenue generating guest services. The exceptional in-room guest services made possible by the system can increase guest satisfaction, improve occupancy rates and maximize revenues.

Matt Hutchins, Chief Executive Officer of KoolConnect Technologies commented, "The ability to meet the growing demand from guests for higher quality in-room entertainment services has become a key differentiator for hotel operators. We chose Eagle's high definition MediaPro set-top boxes because of their sophisticated technology and their ability to power the advanced features such as HD video that KoolConnect has developed to assist our hospitality customers in attracting and retaining the most loyal and profitable guests."

Dave Micek, president and CEO of Eagle Broadband commented, "KoolConnect has established an outstanding reputation for delivering the most advanced in-room entertainment to leading hospitality operators around the globe. We are excited KoolConnect selected Eagle's MediaPro set-top box technology to power their Intrigue® system and look forward to helping them meet the high definition in-room entertainment needs of both their new and existing hospitality customers."

Eagle's MediaPro IP set-top box product line incorporates the most advanced technologies to deliver exceptional performance at industry-leading price points. The MediaPro IP5000 platform features

advanced Intel® architecture graphics and memory controller with a highly integrated graphics accelerator. The architecture consists of dedicated multi-media engines executing in parallel to deliver high performance 2D, 3D and motion compensation video capabilities. The MediaPro IP5000 supports a VESA DDC2B compliant display interface and a digital video out port to provide NTSC and PAL broadcast standards.

The IP5000 also provides full PVR functionality in an IP-based format including record, playback, fast-forward and rewind of live and scheduled programming; live broadcast pause, instant rewind and playback with slow motion; and the capability to use all of these features while recording another broadcast. The PVR recording storage capacity is dependent upon the size of hard-disk, which is configurable based upon service provider requirements. The entire line of MediaPro set-top boxes supports a variety of leading middleware and video-on-demand systems and delivers advanced content system security and digital rights management (DRM) needed by a wide variety of industries, such as telco, hospitality, enterprise, and government markets.

For additional information regarding MediaPro IP set-top boxes or to schedule a demonstration, please call 800-628-3910 or 281-538-6000 or send an email to mediaproinfo@eaglebroadband.com.
