DIGITAL VIDEO ON-DEMAND BECOMES A REALITY FOR MIDSACLE HOTEL PROPERTIES

KoolConnect and Unisys help downtown Minneapolis attract upscale business travelers with new in-room entertainment solutions in the Holiday Inn Metrodome and Holiday Inn Burnsville

NEW YORK, NY and MINNEAPOLIS, MN - FEBRUARY 22, 2005 - Capitol Hotel Group and KoolConnect Technologies today announced that the Holiday Inn- Metrodome and Holiday Inn- Burnsville in Greater Minneapolis have successfully deployed KoolConnect's advanced KIS Video on Demand solution – making them two of the first Holiday Inns in the country to implement the next generation of in-room entertainment services.

While digital Video on Demand has been making in-roads at the Luxury and Upscale segments – KoolConnect for example has successfully installed their solution in several of these type properties – until now the solution has proven to be out of reach for Midscale brands. As a result of recent advancements in technology, however, now midscale properties can offer advanced in-room entertainment services that were previously only applicable at the Four and Five-Star levels.

The installation comes at an opportune time for Minneapolis as the city continues its efforts to enhance the downtown area's appeal to business travelers and tourists alike. "We're extremely excited to be offering this new technology," said Jack Stere, Vice President of Capitol Hotel Group, owner/operators of the Holiday Inn Metrodome and Holiday Inn Burnsville. "We're bullish on the greater Minneapolis area as demonstrated by the sizeable investment we've made to modernize these two properties. With this new Video on Demand solution, our guests will not only be able to enjoy comfortable renovated facilities, but also state-of-the-art in-room entertainment and digital services that go far beyond that found at a midscale hotel."

The Holiday Inn- Burnsville is conveniently located within minutes of corporate business offices, the Mall of America, the Minnesota Zoo and the Minneapolis-St. Paul International Airport. The Holiday Inn Minneapolis Metrodome is centrally located on the edge of the downtown business district and the west-bank campus of the University of Minnesota. They are the official hotel of the Minnesota Twins Baseball Organization and one of the closest properties to the HHH Metrodome Stadium, also home of the Minnesota Vikings.

The KoolConnect KIS solution now available at the Holiday Inn Minneapolis Metrodome and Holiday Inn Burnsville is a fully digital interactive in-room entertainment solution that has been specifically designed for the hospitality marketplace and is customized to fit and enhance the unique style of each individual property. KIS features an extensive array of on-demand entertainment offerings from major studios, a menu of digital hotel services such as a Virtual Concierge Web TV and laptop-based High-Speed Internet access.

To further enhance the solution, deployment and on-going guest support services are provided by KoolConnect's partner, Unisys, a Fortune® 300 technology services leader.

“What really made this type of upscale solution available to these newly renovated Holiday Inn properties in Greater Minneapolis is that KoolConnect has made tremendous strides in reducing the cost of state-of-the-art next generation VOD,” said Eran Segev, President of KoolConnect Technologies. “With those strides, we’ve also been able to offer creative new business models, including complete revenue-sharing arrangements that make the solution available in standard and High-Definition for properties in the Three, Four and Five-Star markets.”
